THE IMPORTANCE OF ATTENDING YOUR

APPOINTMENTS ON A REGULAR BASIS

We have serious concerns regarding the frequency of missed appointments. The treatment plan that we recommended at your Report of Findings is a prescription for care that is no different than any other prescription from your medical doctor. If a Doctor of Medicine prescribes 3 pills per day for 12 days or a total of 36 pills, that is no different than our prescription for 3 treatments per week for 12 weeks or 36 treatments. The difference lies in the fact that you are taking the medication and in a sense self treating. The treatment we deliver can only be delivered by the doctor with you being present in our office. To have the best possible results you must follow the recommendations we made to you. If you miss a prescribed medication you slow down, stop your recovery or sometimes cause your condition to worsen. If you miss your chiropractic treatment you slow down or stop and sometimes cause your condition to worsen as well. Missing a treatment may take an additional few treatment 0 to make up for the loss. The improper treatment or lack of treatment in the manner we recommended can often times cause the quality of your life to become compromised. This may cause difficulty performing necessary tasks which may affect your daily activities, entertainment, and work. Make your appointments for a time that you will not be having to cancel or change. We work by appointment in an effort to enable patients to spend as little time as possible receiving the necessary treatment. When you cancel or miss an appointment you not only lose out on the benefits of the treatment but affect others who could have taken that appointment time. Being late or early for an appointment without calling may cause increased waiting time for other patients who are on time for their appointments.

Missed Appointments

To enable us to efficiently attend to our patients, appointments for the following week are scheduled at the end of each week. Our Office Policy requires our patients to make appointments in advance. When an appointment time needs to be changed it is **COMMON COURTESY** that you make the change in person or by telephone prior to the scheduled appointment that is being changed. If you are running late or wish to come in earlier, we require that you call and change your scheduled appointment time. Missed appointments are required to be made up the same week or the following week. Missed appointments (i.e. "no show, no call") may result in a $50.00 charge after the first incident. Attending your appointments are to your advantage as they will enable you to heal faster and more completely preventing complications and long-lasting chronic problems.

Financial Plans:

If you have been given the Privilege of paying for your treatment with our Interest Free Financial Plan, you are being given the Privilege of receiving your necessary treatment in a manner that is to your financial advantage as noted in the Financial Agreement. You are receiving treatment that would cost you more than three to four times the fees included in your plan. We offer these Financial Plans to enable our patients to receive the necessary treatment and achieve optimal results without the burden of unknown costs. Enabling the cost of treatment to be distributed monthly over a one-year time period results in reduced up-front payments.

Administering a practice is complicated and time consuming. The requirements imposed on the Doctor's Office by the Insurance Companies has become burdensome and takes time away from patient treatment. Contacting the Insurance Companies/Governmental Agencies requires that we leave a message and wait for a call back which can take days or even weeks. We must answer the call backs immediately or we lose the opportunity to receive answers to questions that affect our patient's treatment and payment. Unfortunately, many of these calls necessitate the doctor's attention and, in some instances, may require the patient to wait. Each of you may be in this situation at some time or another and we hope you can be patient and understand when this happens.

YOUR HEALTH IS OUR PRIMARY CONCERN AND IT SHOULD BE YOURS AS WELL. "WHEN YOU HAVE YOUR HEALTH, YOU HAVE EVERYTHING"! PLEASE MAKE EVERY EFFORT TO COMPLY WITH YOUR TREATMENT RECOMMENDATIONS!!!

I hereby state that I have read the above and understand its content and agree to abide by the Office Procedures and Rules.

To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

The nature of the chiropractic adjustment.

The primary treatment I use as a Doctor of Chiropractic is spinal manipulative therapy. I will use that procedure to treat you. I may use hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible "pop" or "click," much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis/Examination/Treatment

As part of the analysis, examination, and treatment, you are consenting to the following:

Patient should initial the procedures they are consenting to.

X Spinal Manipulation X Palpation X Vital Signs
X Range of Motion Testing X Orthopedic Testing X Basic Neurological Testing
X Muscle Strength Testing X Postural Testing X Ultrasound
X Hot/Cold Packs X EMS X Radiographic Studies
___Other (please explain) _____

The material risk inherent in chiropractic adjustment.

As with any healthcare procedure, there are certain complications, which may arise during chiropractic manipulation and therapy. These complications include but are not limited to fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. I will make every reasonable effort during the examination to screen for contraindications of care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me.

The probability of those risks occurring.

Fractures are rare occurrences and generally result from some underlying weakness of the bone, which I check during he is taking of your history and during examination and X-ray. Stroke has been the subject of tremendous disagreement. The incidence of stroke is exceedingly rare and are estimated to occur between one in one million and one in five million in cervical adjustments. The other complications are also generally described as rare.

The availability and nature of other treatment options.

Other treatment options for your condition may include:

Self-administered, over-the-counter analgesics and rest

Medical care and prescription drugs such as anti-inflammatory, muscle relaxants and painkillers.

Hospitalization

Surgery

If you choose to use one of the above noted "other treatment" options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

The risks and dangers attendant to remaining untreated.

Remaining untreated may allow the formation of adhesions and reduce mobility, which may set up a pain reaction further reducing mobility. Over time the process may complicate treatment making it more difficult and less effective the longer it is postponed.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE. PLEASE CHECK THE APPROPRIATE BLOCK AND SIGN.

I have read [X] or have had read to me [ ] the above explanation of the chiropractic adjustment and related treatment. I have discussed it with Dr. Stabile and have had my questions answered to my satisfaction. By my signature below I state that I have weighed the risks involved n undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.

C. WE MAY USE AND DISCLOSE YOUR INDIVIDUALLY IDENTIFIABLE HEALTH INFORMATION (PHI) IN THE FOLLOWING WAYS

The following categories describe the different ways in which we may use and disclose your PHI.

1. **Treatment.** The information in your medical records will be used to determine which treatment option best addresses your health needs. The treatment selected will be documented in your medical records so that other health care professionals can make informed decisions about your care. For example, we may disclose your PHI to others who may assist in your care, such as your spouse, children, or parents. Finally, we may also disclose your PHI to other, health care providers for purposes related to your treatment.

2. **Payment** Our practice may use and disclose your PHI in order to bill and collect payment for the services and items you may receive from us. For example, we may contact your health insurer to certify that you are eligible for benefits (and for what range of benefits), and we may provide your insurer with details regarding your treatment to determine if your insurer will cover, or pay for, your treatment. We also may use and disclose your PHI to obtain payment from third parties that may be responsible for such costs, such as family members. Also, we may use your PHI to bill you directly for services and items. We may disclose your PHI to other health care providers and entities to assist in their billing and collection efforts.

3. **Health Care Operations**. Our practice may use and disclose your PHI to operate our business. As examples of the ways in which we may use and disclose your information for our operations, our practice may use your PHI to evaluate the quality of care you received from us, or to conduct cost-management and business planning activities for our practice. We may disclose your PHI to other health care providers and entities to assist in their health care operations.

4. **Appointments and Reminders**. Our practice may use and disclose your PHI to contact you and remind you of an appointment or as a follow up on treatment.

5. **Non-Medical Communications**. Our practice may use your PHI to contact you for non-medical reasons. For example,', we may send you a birthday card or a holiday greeting via mail.

6. **Health-Related Benefits and Services** Our practice may use and disclose your PHI to inform you of health-related benefits or services that may be of interest to you for example, we may send you newsletters that may include information about our practice, health related issues and products and services.

8. **Release of Information to**. Family/Friends. Our practice may release your PHI to a friend or family member that is involved in your care, or who assists in taking care of you. For example, a parent or guardian may ask that a babysitter take their child to the pediatrician's office for treatment of a cold. In this example, the babysitter may have access to this child's medical information.

9. **Disclosures Required By Law**, Our practice will use and disclose your PHI when we are required to do so by federal, state or local law.

D. **USE AND DISCLOSURE OF YOUR PHI IN CERTAIN SPECIAL CIRCUMSTANCES**

The; following categories describe unique scenarios in which we may use or disclose your Identifiable health information.

PLEASE READ ALL TEXT, IF YOU UNDERSTAND WHAT YOU HAVE READ, PLEASE SIGN WHERE INDICATED AT THE BOTTOM OF THIS FORM.

AUTHORIZATION TO RELEASE INFORMATION ---I hereby authorize any provider insurance company, physician, employer or organization to release any information regarding history, treatment, or benefits payable and related information concerning this claim, to the plan administrator or it's authorized agent, for the purpose of validating and determining benefits in connection with this claim and to any reviewer that Dr. Lori Ann G. Palumbo, Chiropractic Physician and Albert Stabile Jr., Chiropractic Physician may deem necessary to perform a file review for the purposes of payment, rebuttal of treatment denial, retroactive review, current denial of care, payment or nonpayment of my claims.

PAYMENT AUTHORIZATION---I authorize payment of all benefits for services rendered from Chiropractic Physician and Albert Stabile Jr., Chiropractic Physician and/or the offices known as indicated on the enclosed bills.

This statement applies to insurance assignment and/or an Attorney Lien against any settlement made in conjunction with the above named for condition or injuries which I am being treated for in the offices of the above-named physicians.

OFFICE POLICY REGARDING APPOINTMENTS --- Multiple appointments may be given to you for your convenience, to minimize waiting and to facilitate incorporating these appointments into your daily schedule. Regardless of how many appointments are scheduled for you each week, please remember that it is frequency of the visits that is important, and not the days. If you are unable to keep an appointment for any reason, we require that you call immediately to reschedule your visit. IF YOU NEGLECT TO CALL TO RE-SCHEDULE AN APPOINTMENT THAT YOU CAN NOT MAKE, AND DO NOT SHOW UP FOR THAT APPOINTMENT, YOU WILL BE CHARGED. If you are late for an appointment you may have to wait for the next available opening. If you have any questions please ask the receptionist.

OFFICE POLICY REGARDING ASSIGNMENT ---Our office is pleased to accept your insurance assignment, as soon as your exact coverage is verified by the responsible party. We will file your claim forms and assist you in any way that we can. However, it must be fully understood that the Contract is between you and your insurance company, and you are fully responsible for the amount that is not paid by your insurance company.

Our Policy is as follows:

1. Since, by taking your insurance assignment, we have to wait for payment, this courtesy may be withdrawn at any time if the situation warrants it.
2. If you discontinue care without the doctor's consent, the balance of your account is due to be paid in full, even if insurance has been filed. (You will be reimbursed if your balance is zero)
3. Your insurance company should pay within 30 days. If they do not pay within 60 days, you must pay the balance due and be reimbursed by the insurance company.
4. We will bill your insurance company in 15-day cycles, for as long as you receive care.
5. All deductible payments MUST be made prior to insurance submittal. You are required to pay your co-payment as you go along.
6. You are required to sign for "Authorization to Pay the Provider" (above) and any other documents required by your insurance company, on your first visit.
7. Our office does not guarantee that your insurance company will pay. We will make every attempt to verify your coverage and collect, but all claims are your responsibility.
8. Since we do not own your policy, and occasionally, we have trouble in collecting from the carrier, we may ask for your active assistance in rectifying this situation.
9. Returned checks and balances over 30 days may be subject to additional collection fees and interest charges of 1½% per month. Charges may also be made for missed appointments and those canceled without 24 hours' notice.

10. All patients whose visitation schedule is once per month (or longer) will not be eligible for insurance assignment. Charges for services rendered will again be due as they are received.
11. This office does not promise that an insurance company will reimburse you for the usual and customary charges submitted by this office, nor will we enter into any dispute with an insurance company over the amount of reimbursement.
12. Should you discontinue care for any reason other than discharge by the doctor, any and all balances due will become immediately payable in full, regardless of any claims submitted. Any over payments will be refunded to you.
13. This office does not file for or accept co-payment for secondary Insurance coverage.
14. The privilege of Insurance assignment begins when our office receives your insurance forms, and your insurance is "Qualified" for coverage. You are considered a cash patient until our office "qualifies" your coverage to determine the extent of benefits under your policy.
15. Lastly, it is the goal of this office to provide you with the finest quality Chiropractic care available. If you have any questions with regard to your health care, or any of our policies, please let us know. We look forward to your referrals and to a doctor-patient relationship that works for our mutual benefit.

ACTIVITIES OF DAILY LIVING GENERAL PAIN DISABILITY INDEX-This information is very important.

The rating scales are designed to measure the degree to which several aspects of the patient's life are presently disrupted by acute or chronic pain. In other words, we determine how much the pain the patient is experiencing is preventing the patient from doing what would normally be done, or-from doing it as well as the patient normally would. Each category was responded to by indicating the overall impact of pain in the patient's life, not just when the pain is at its worst.

For each of the six categories of daily living listed, the patient writes the number, which best described the typical level of activities. A score of 0 means no disruption in functioning at all, and a score of 10 signifies that all of the activities in the specific category in which the patient would normally be involved have been totally disrupted or prevented by the pain.

FAMILY/HOME RESPONSIBILITIES: This category refers to activities related to the home or family. It includes chores and duties performed around the house and errands or favors for other family members (e.g., driving the children to school, Travel, Driving, Riding as a passenger, Driving for more than 15-20 minutes, Riding as a passenger for more than 15-20 minutes, Sitting, Climbing stairs, Getting in/out of auto, Kneeling, Lifting children, Using telephone, Using computer, Yard Work, Mowing lawn, Raking leaves, Gardening, Housework, Doing Laundry, Making beds, Bending, Running, Walking, Walking for long distance, Sitting for long periods of time, Lifting more than a few pounds, Vacuuming, Washing dishes, Ironing, Carrying groceries, Caring for pets, Cooking.)

The patient indicated that Family/Home Responsibilities were affected at a level of ____.

RECREATIONAL ACTIVITIES: This category includes hobbies, Reading, Playing piano, Exercising, Swimming, sports and other similar leisure time activities.
The patient indicated that Recreation Activities were affected at a level of ____.

SOCIAL ACTIVITY: This category refers to activities, which involve participation with friends and acquaintances other than family members, it includes parties, theater, concerts, dining out, and other social functions.
The patient indicated that Social Activities were affected at a level of ____.

OCCUPATIONAL ACTIVITIES: This category refers to activities that are a part of our directly related to one's job. This includes non-paying jobs as well, such as that of a homemaker or volunteer worker.
The patient indicated that Occupational Activities were affected at a level of ____.

SELF CARE ACTIVITIES: This category includes activities which involve personal maintenance and independent daily living (e.g., taking a shower, Personal Grooming, combing hair, Shaving, In/out bathtub, brushing teeth, Getting dressed, etc.)
The patient indicated that Social Care Activities were affected at a level of ____.

LIFE-SUPPORT ACTIVITY: This category refers to basic life-supporting behaviors such as eating, sleeping, lying in bed, Chewing, Sitting in recliner and breathing.
The patient indicated that Life-Support Activities were affected at a level of ____.

The above Activities of Daily Living Pain Indexes totaled .
By dividing the sum total of all the Activities of Daily Living Ratings by the total of possible Total
Disability you arrive at a percentage of Total Activities of Daily Living Disability. The patient was given a Activities of Daily Living General Pain Disability Index Questionnaire on and had a score of ____/60 and a percentage of General Pain Disability of ___% .
The percentage of disability is rated 0-20%, No Disability to Minimal disability, 21-40% Moderate disability, 41-60% Severe disability, 61-80% Crippling disability, 81-100% Bed-bound or exaggerating.
